Spread warmth, save lives.

IncuBlanket **Baby Instant Warming Blanket** Hours of Warmth for Safe, Non-Electric, and Reusable Warming

DESCRIPTION

Use for infant thermal management to prevent and treat hypothermia following surgery, during transport (in external referral or intrahospital ward-to-ward), labor and delivery, or as an alternative source of infant warming. Simply click the disk for instant non-electric heat anywhere.

- Lasts at least 5-8 hours.
- Pack reusable at least 100 times simply by boiling or autoclave. Wash or wipe IncuBlankets.
- US-patented (No. 9,605,874) thermal buffer provides safe warming.
- Wipable pack, smooth surfaced on both sides.
- IncuBlanket completely washable or wipable under standard hot wash conditions for 25 minutes.
- Withstands 1,000 lbs of weight.
- Kenya Pharmacy and Poisons Board Cleared (No. 3013923269, Owner/Operator No. 10055658)
- Designed under the supervision of neonatologists to be safe and easy to use. Clinically evaluated and validated to regulate temperature up to 5 hours.

Clinically validated to thermoregulate infants.

PRODUCT BRIEF DESCRIPTION

This is a non-electric, reusable infant warming blanket that instantly generates warmth that lasts for hours. The pack is made from nontoxic medical and food-grade materials. All materials CPSIA compliant for infant use.
