

warmilu™

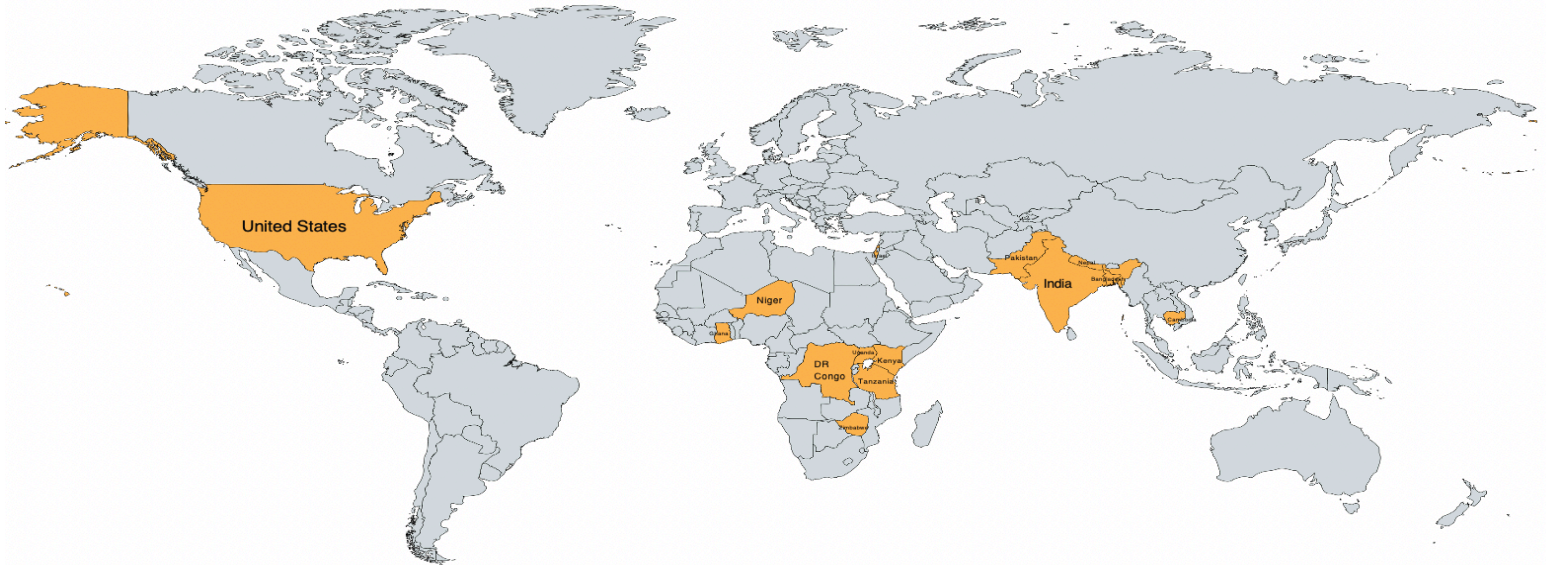

Spread warmth, save infant lives.

Who Do We Serve?

Hospitals & Medical Device Distributors

At Warmilu, we make US-patented non-electric warming medical devices including the infant warming incubator blanket and warming pack. Our infant warming blanket incubators (**IncuBlankets**) and packs (**InstaWarmers**) are used for prehospital and intrahospital transport and as an additional source of warmth for neonatal intensive care units, newborn units, and operating rooms.

warmilu™ warms over **8,500** babies in **33** hospitals now in **14** countries.

Cleared by Regulatory Bodies for Export and Medical Warming

The InstaWarmer warming pack has cleared the US FDA for infant and adult patient warming. Warmilu products have US FDA Certificates of Exportability and have cleared **PVoC (Pre-Export Verification of Conformity)** for Exports through SGS Governments and Institutions Services of SGS. The IncuBlanket and InstaWarmer have successfully cleared the Kenya Pharmacy and Poisons Board. Accepted by the Kenya Bureau of Standards for imports to Kenya and similar authorities around the globe.

Warmilu LLC 326 W. Liberty St. #7, Ann Arbor, MI 48103 | Phone: +1 248 835 8703 | info@warmilu.com

Warmilu stands for warm, I love you.

The Warmilu IncuBlanket maintains infants' body temperature at 36.4°C–37.5°C. (97.5°F – 99.5°F) for 5 or more hours to prevent hypothermia. Heat is generated in under 4 seconds with the click of a disk.
